Congress Passes Landmark VA Mental Health Counselor Bill
Today, the House of Representatives approved S. 785, sending a major VA mental health and counseling bill to President Trump for signature. The bill is the most significant new legislation for the counseling profession in over a decade and a tremendous advancement for mental health counselors working for the federal government, and particularly the Department of Veterans Affairs.

AMHCA Legislative Affairs consultant, David Bergman, posted an update in the AMHCA community today.
